SELKIRK

SPECIALTY WOOD LTD.

Located in British Columbia, **SELKIRK** is a family owned company that has been doing business for more than 15 years. As one of the first manufacturers to specialize exclusively in cedar, **SELKIRK** has quickly become a premier producer. They have grown their business by being responsive to their customers. Striving to make themselves your exclusive cedar source, they produce a wide variety of products including **Decking, Select Boards, Common Boards, Finger Jointed Products, Primed Products, Squares, Bevels, and Patterns.**

Unlike most mills, **SELKIRK** keeps an inventory on the ground specifically to allow you the flexibility of mixing and matching products on truckload purchases. They continue to invest in technology in order to bring you a superior product in a more efficient manner. **SELKIRK** is environmentally responsible and focuses on replenishing the forests by utilizing sustainable forest practices.

MIDWEST LUMBER has chosen to partner with **SELKIRK** because of both their commitment to producing a superior product and their willingness to quickly respond to market feedback. Our goal is to provide premium Cedar that is easy for you to inventory and that becomes a joy to sell.
